H04M 3/42(21) Application number: **63034334**(71) Applicant: **FUJITSU LTD**(22) Date of filing: **17.02.88**(72) Inventor: **EBINUMA MITSUO****(54) RECORDING/REPRODUCTION CHANGEOVER CONTROL SYSTEM****(57) Abstract:**

PURPOSE: To improve operability and convenience in a voice storage device by stopping tentatively the operation in the operating mode being set and switching the mode to a different operating mode based on the designation from a subscriber.

CONSTITUTION: A mode setting means 100 sets the operating mode of a voice storage device 2 by a command from a subscriber 3. A temporary stop means 200 stops the operation tentatively by the operating mode being set to the mode setting means 100. When the subscriber 3 gives a command of switching the operating mode to the voice storage device 2 during operation, the setting mode changeover means 300 starts the tentative stop means 100 to stop the operation by the operating mode set by the mode setting means 100 tentatively to start the operation by the operating mode commanded by the subscriber.
